ABOUT: -

I am an Industrial Training Institute course currently doing an internship. I have a keen interest in programming, Web Development, and learning new technologies. I am quick learner, hardworking, and eager to apply my skills in a professional environment.

PROJECT: -

LOK SAMADHAN

Role: Front-End Developer.

Description:

This website serves as the official digital platform of the Lok Samadhan, designed to connect people with the party's vision, objectives, and development plans.

Key Features:

- About the Party – Detailed information on the party's history, mission, and ideology.
- Leadership Team – Introduction to key leaders and their contributions.
- Policies & Terms – Plans for social development, education, healthcare, and economic reforms.
- Contact & Donate – Ways for people to connect with the party and become members. Every contribution helps us reach more people and make a bigger impact

This website empowers Lok Samadhan digitally, enabling people to stay informed, engage with the party's vision, and show their support.

Tools:

- Visual Code.
- Canva

WORK EXPERIENCE: -

- ❖ Web Development Internship (11 Nov 2024 - till date)
from HINDSOL SOFTWARE PRIVATE LIMITED
